# Davit Khaburdzania

Full Stack Developer

## Summary

I am Full-stack developer with 7 years of experience , currently working with Elixir and React Native Mainly.

- I am passionate to write maintainable code using common design patterns.
- I have worked with many languages and Frameworks currently i am excited with Elixir/Phoenix
- I have written big applications with millions of users so i have good experience with caching, common security holes and dealing with big data.

looking for challenging projects and startups to help you built something great and also hone my skills.

---
